## Weekly Update

Happy Memorial Day Everyone! We are always reminded of the fragile cost of freedom on this day. We want to Thank all who paid the price for us to live in this beautiful land.

We want to thank everyone who visited this past week, it wasn't the best weather for getting out on the river. But, it was great for Golfing. We had record breaking numbers of Golf played on a weekend, with over 300 rounds played.

The weather looks to be warming up a bit this week! We are excited June is just around the corner and looking forward to many fun Summer nights ahead.

Golfers,

## Superintendent's Corner

I hope you all were able to enjoy your Memorial Day weekend despite the cooler weather. It was great to see so many people enjoying the course. Thank you to everybody for sticking to your tee times and listening to the guidance of our Marshal and Pro-shop staff. There was a small leak that turned into a major leak on fairway 2. I apologize for any disruptions to play caused by this. It is being repaired and should be operational again soon.

You probably noticed the work that we have done to the flower bed at tee box 1. There is still more to be done, but once it's finished and the plants have grown in, it should be a great show piece of attractive perennial flowers and grasses that will last for years to come. The month of June is promising highs in the mid-70s with some more rain and cloudiness. The end of the month should start to enter into the 80s. This is great news for the turf because it should extend the growing season longer than usual which will help us to survive the summer dormancy period with ease.

Thank you all, again, for your cooperation over this busy weekend where we remember those who have died for our right to enjoy our lives on this remarkable land.
